Subject Index, Volume 11, 1994

Adipose Tissue
Decreased acetyl-CoA carboxylase gene expression 125

Adrenocorticotropin
Adrenal cortex response to 115
Stress response in pigs 133
Effect of aprotinin on measurements of 355

Avian
Gonadotropins on testosterone production 271
Estradiol and testosterone production by small follicles 307

Bovine
Adrenal cortex response to ACTH 115
Effects of diet and body condition on ovarian function, IGF 161
Effects of dietary IGF on insulin, xylose, globulins, glutamyl trabsferase 393
Environment and regulation of IGF 281
Estrogen and prostaglandin production by fetal membranes 175
Estrogen, progesterone effects on hormones after thyroidectomy 13
IGF-II gene expression in normal and doubled muscled 339
Ovarian function in relation to steroids, prolactin, glucosaminoglycans 35
Ovarian function in relation to steroids, prolactin, glucosaminoglycans 59
PACAP and prostaglandin on growth hormone release from 331
Production perofrmance of, administered somatotropin 239
Serum hormones during the estrous cycle after PTU or T4 1
Somatotropin and IGF-1 in plasma and milk after somatotropin 209

Canine
Effect of aprotinin on ACTH measurements in 355
Portosystemic encephalopathy and free cortisol in 317

Cortisol
Circadian rhythm in horses 227
Pituitary-adrenal axis response to stress 133
Portosystemic encephalopathy and free cortisol 317
Response to adrenocorticotropic hormone 115

Cytokines
Effects on FSH-induced estradiol production 25

Environmental Biology
Effects of, on insulin-like growth factor 281
Effects of temperature on somatotrope function and growth 101
Effects of temperature on somatotroph, lactotroph function 217

Equine
Circadian rhythm of cortisol 227
Inhibin activity in 87
Localization of aromatase in Leydig cells 291

Estrogen
Absorption and metabolism by stomach, duodenum 197
Circulation of, after administration into GI tract 383
Effects on follicular development, oocyte viability 35
Effects on follicular development, oocyte viability 59
Effects on serum hormones after thyroidectomy 13
Estradiol production by small follicles 307
Negative feedback effects on LH 151
Steroidogenic potential and IGF in cattle 161
Synthesis by caruncular and allantochorionic tissues 175

Gastrointestinal Tract
Absorption and metabolism of estrogen by 197
Circulation of estrogens introduced into GI tract 383

Gonadotropin Releasing Hormone
Opioid regulation of release of 375
Posttranslational processing of proGnRH 323

Growth Hormone
Adrenergic regulation of 187
Concentrations in plasma and milk 209
Decrease acetyl CoA carboxylase gene expression after administration 125
Effect of temperature on growth 101
Effect of temperature on somatotroph function 217
In vitro somatotroph function and growth 363
PACAP and prostaglandin effects on release of 331
Production performance of dairy cattle administered 239

Insulin
Dietary IGF-I effects on 393

Insulin-Like Growth Factors
Concentrations in plasma and milk after somatotropin 209
Effect of high fat diet and body condition on 161
Environment and regulation of IGF-I 281
IGF-I binding protein effect on DNA synthesis 299
IGF-II gene expression in double muscled cattle 339

Luteinizing Hormone
Effects on testosterone production 261
Hypothalamic deafferentation on steroid inhibition of 151
Ovarian function with superovulation with normal or absent surge of 35
Ovarian function with superovulation with normal or absent surge of 59
Response to morphine and naloxone 271

Muscle
IGF-II gene expression in normal and doubled muscle cattle 339

Opioids
LH response to morphine and naloxone 271
Modulation of GnRH release from preoptic area 375

Ovary
Effects of cytokines on estradiol production 25
Estradiol production by small follicles 307
Ovarian function in cattle on high lipid diet 161
Ovarian function in relation to steroids, prolactin, glucosaminoglycans 35
Ovarian function in relation to steroids, prolactin, glucosaminoglycans 59
Synthesis and secretion of oxytocin from 349

Ovine
Adrenergic regulation of growth hormone 187
Anteroir hypothalamic deafferentation and naloxone on LH 151
LH and sexual behavior of rams, effects of morphine 271
Posttranslational processing of proGnRH 323

Oxytocin
Synthesis and secretion from corpora lutea 349

Pituitary Adenylate Cyclase-Activating Polypeptide
Effect on growth hormone release 331

Porcine
Absorption and metabolism of estrogen by stomach, duodenum 197
Circulation of estrogens introduced into GI tract 383
Effect of temperature on somatotroph function and growth 101
Effect of temperature on somatotroph, lactotroph, thyrotroph function 217
IGF binding protein effects on DNA synthesis 299
In vitro somatotroph function and relation to growth 363
Neonatal porcine skin fibroblasts and IGF-1 299
Opioid modulation of GnRH release from preoptic area 375
Resonse of adrenal axis to stress 133
Somatotropin decreases acetyl-CoA carboxylase expression 125

Progesterone
Effect of, on serum hormones after thyroidectomy 13

Prolactin
Effect of temperature on lactotroph function 217
Effect of temperature on lactotroph function and growth 101

Prostaglandin
Effect on growth hormone release 331
Synthesis by caruncular and allantochorionic tissue 175

Testes
Effects of gonadotropins on chick 261
Localization of aromatase in Leydig cells 291

Testosterone
Production by small follicles of the chicken ovary 307
Secretion from chick testicular cells 261

Thyroid Hormones
Hormone responses to estradiol and progesterone after thyroidectomy 13
Serum hormones during estrous cycle after PTU, T4 1

Thyrotropin
Effect of temperature on thyrotroph function 217
